Remarks

Claims 1-15 are currently pending in this application. Claim 1-5 stand rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point and distinctly claim the subject matter which Applicant regards as the invention. More specifically independent claims 1 and 12 have respectively "the object" and "the first and second monitor structures lacking sufficient antecedent basis.

Applicant has amended claims 1 and 12 to provide such antecedent basis and now are believed in condition for allowance. It was not the Applicant's intent by this amendment to limit the breadth of the claims, and the Examiner has otherwise indicated that the dependent claims as well as the independent claims would be allowable if rewritten to overcome the rejection.

It is therefore respectfully requested that claims 1-15 be moved to allowance.

SUMMARY AND CONCLUSION

In view of the foregoing, withdrawal of the rejections and the allowance of the current pending claims is respectfully requested. If the Examiner feels that the pending claims could be allowed with minor changes, the Examiner is invited to telephone the undersigned to discuss an Examiner's Amendment.
